Unified Purchasing Workflow

All employees—from your patient-facing offices to your corporate headquarters—can easily make purchases in one fast, easy-to-use system.

Real-time visibility

See spend the moment it happens and easily view audit trails to track who approved what, when and why.

Proactive controls

Set your company purchasing policy upfront and let our software automatically enforce rules, selecting the right approval chain based on the employee, vendor, amount, and more.

Built-in user management

Automate user on/offboarding to save time and avoid perpetuating subscription payments from employees who have left the company.

Automated reconciliation

Eliminate manual work by automating reconciliation in your accounting system in real time.
