

# Teampay and SVB: the complete purchasing solution for modern finance

Connect your SVB cards with Teampay for a seamless, all-in-one purchasing solution. Get versatile purchasing cards plus spend controls, approval workflows, AP software and accounting automation.

## Powerful spend controls

Teampay's software automatically enforces policy so you don't have to

## Real-time visibility

Get a full, accurate picture of company spending in the moment

## Empowered employees

Delight your team with a modern purchasing experience that won't slow them down

For every purchase, no matter how it's paid, employees just go to Teampay.

Virtual Cards

Instantly issue virtual cards from your SVB credit line that are unique to each purchase for maximum control and security

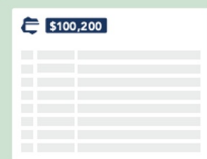

Physical Cards

Connect your SVB Multi card or Innovators card directly to Teampay for real-time visibility into transactions as they happen

Purchase orders and invoices

Stay on top of invoices with pre-approvals on all invoiced spend and bill pay all right in Teampay—no separate AP solution needed

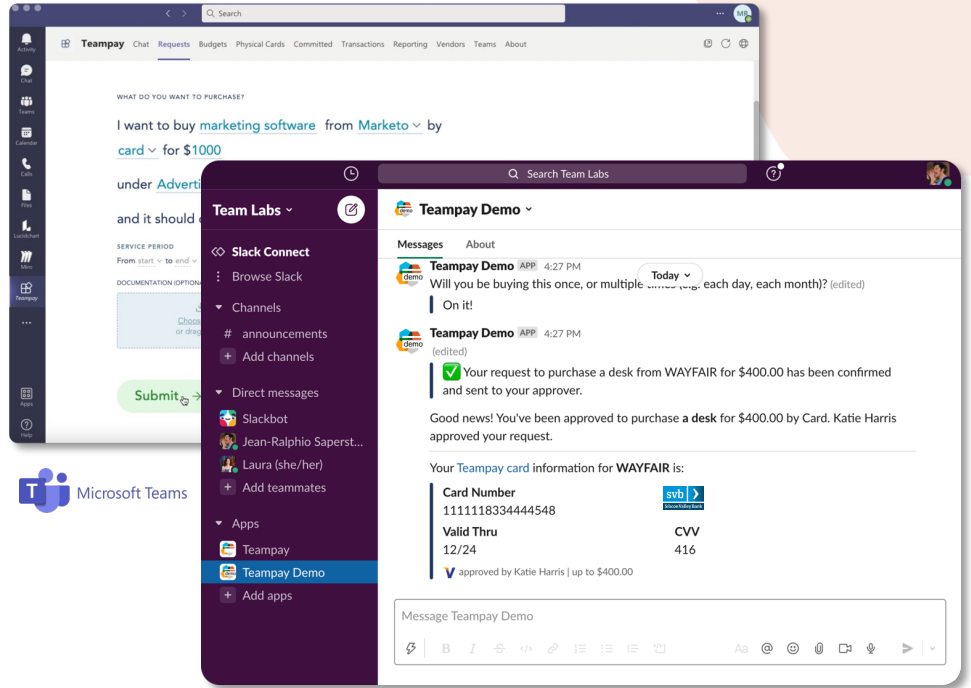

Reimbursements

For all the "I forgot my card" moments, easily pay reimbursements directly to employees via ACH

# Making a purchase is as easy as having a conversation.

By providing a premium user experience, we drive adoption and compliance through the roof.

Teampay's easy-to-use interface lives right in your Slack or Microsoft Teams app and guides employees through the purchasing process from start to finish. No training sessions, no special login credentials and no handholding required.

Teampay's software enforces policy in real time and captures receipts and purchase data upfront, **so you can say goodbye to surprise purchases, expense reports and messy month-end close.**

40

40 days of working capital with your existing SVB credit line

10

Finance teams save an average of 10 hours per month after switching to Teampay

0

0 hours spent coding and reconciling transactions at month-end—employees pre-code them upfront

0

0 expense reports to review—expenses are tracked in real time so you see spend as it happens
